

ULTRAVISOR

ULTRAVISOR

Areas of application & use:

- [1] [2] [5] [6] Face protection visor for mechanical work
- [3] [4] Face shield visor for chemical work

Foldable visor & optional chin guard

The ULTRAVISOR can optionally be used with a chin guard. The head holder offers the option of opening the visor.

Complete protection for the face

The ULTRAVISOR face protection visor offers complete protection for the entire face. Face protection for welders, for example, or for work in hazardous chemical areas.

Optimised head holder

The head support of the ULTRAVISOR has been optimised and offers more comfortable pressure distribution at the back of the head. Thanks to the rubberised padding, this headrest also ensures a non-slip fit.

NEW
