

VELOR DIOPTRIE

Very good eye area coverage

The soft face pad of the VELOR reduces the risk of injury and ensures ideal eye area coverage. The reading attachment in the lower area of the protective lens enables sharp vision at close range.

Protective lens solution for wearers of reading glasses

The integrated reading add-on in the lower part of the protective lens enables sharp vision at close range. There is no need to change to reading glasses and the eye remains permanently protected. The VELOR DIOPTRIE is available with inserts in the strengths +1.50/+2.00/+2.50 dioptres.

Just like the Terminator Plus dioptre, the VELOR DIOPTRIE effectively protects the eyes from foreign bodies with its highly curved protective lenses.

VELOR DIOPTRIE	34 g	EN 166	GA 166 F CE	UV 400	5 pc.	Easy Fit Soft
