

TERMINATOR POLARISATION

The bestseller with unlimited combination options

The safety spectacles for all occupational safety and leisure requirements. The enormous variety of lens tints and finishes is matched by various frame colours. This means that everyone can find their TERMINATOR for everyday work, sport and leisure. Due to the wide range of lens technologies, the Terminator is also available in three different welding protection versions and for activities with high UV exposure.

Polarising Safety Spectacles

- Reduced glare from highly reflective surfaces, e.g water, glass, smooth plastics or metals.
- Light is absorbed better and disturbing reflections are reduced more than with usual sun protection lenses
- Strong tint of approx. 90% for very high anti-glare performance
- Ideal for activities on and near the water and in bright outdoor areas
- Increased concentration, less fatigue
- Enhanced contrast and truer colours
