

# TERMINATOR PHOTOTROP

### The bestseller with unlimited combination options

The safety spectacles for all occupational safety and leisure requirements. The enormous variety of lens tints and finishes is matched by various frame colours. This means that everyone can find their TERMINATOR for everyday work, sport and leisure. Due to the wide range of lens technologies, the Terminator is also available in three different welding protection versions and for activities with high UV exposure.

### Photocromic lenses | variable tinting

- Lenses tint automatically with increased UV-radiation
- Tint between 20 and 80%
- Perfect for activities under changing light conditions
- Increased concentration, Fatigue-free working
- Contrast enhancement
