

VISION 5

With 5 adjustment options for a perfect fit

The VISION 5 can be customised to suit every user. The soft temple tips mould perfectly to the shape of the head. The soft padding protects against frontal impacts. The temples can be adjusted in length and angle. The nose pads can also be individually adjusted.

- [1] **Flexible temples**

Adapt individually to every head shape.
- [2] **Soft cushion**

Special protective pads against frontal impacts.
- [3] **Individual temple length**

The individually adjustable temples ensure an optimum, pressure-free fit on the ears and in the temple area.
- [4] **Variable disc angle**

The inclination of the protective lens front can be adjusted to any face shape and for any work situation.
- [5] **Individually customisable nose pads**

The nose pads are individually adjustable for wide and narrow noses.
